YOUR STRATEGIC BACK-END PARTNER

Global Capability Centre

An India-based Centre of Excellence that becomes your back office — global transfer pricing for groups and advisers worldwide, and managed finance & accounting that keeps clients' books across the globe.

Service proposition

TAG Group runs a Global Capability Centre (GCC): a centralised, India-based Centre of Excellence that extends the capacity of multinational groups and overseas professional firms — without adding internal overhead. We act as a global capability centre for transfer pricing across the world, and we maintain the books and finance operations for international businesses, currently delivering finance & accounting for clients in the United States and the UAE, with capacity to scale to new geographies. Partner-led, audit-ready and confidential, we plug into your workflow as a seamless, white-label extension of your team.

Business situations that trigger the need

- You want to scale a TP or finance service line without adding headcount or overhead
- An overseas tax, legal or consulting firm needs a white-label, back-end delivery partner
- Multi-country transfer pricing must be produced to a common, defensible standard
- Your books, close and reporting need a reliable, cost-effective managed-service partner
- You need quick turnarounds on complex regional or cross-border mandates
- In-house TP or finance teams need deputation and surge capacity

Detailed scope of assistance

Documentation & compliance (TP)

- Local File, Master File and CbCR support
- Contemporaneous documentation to local / global standards
- SOP and governance development for consistent documentation
- Deputation support for in-house TP and tax teams

Benchmarking & economic analysis

- Functional, Asset and Risk (FAR) analysis
- Benchmarking studies using leading databases and tools
- Most-Appropriate-Method selection and arm's-length range
- Financial and comparability analysis

Typical deliverables

- Master / Local File & CbCR support

- Benchmarking & FAR analysis
- TP policies & SOPs
- Monthly management accounts
- Close & reconciliation packs
- MIS & reporting dashboards
- Audit-support files
- Deputation & surge capacity
